29.Create wireframes for a collaborative mobile app using Figma, showcasing the peer-to-peer interactions in real-time.
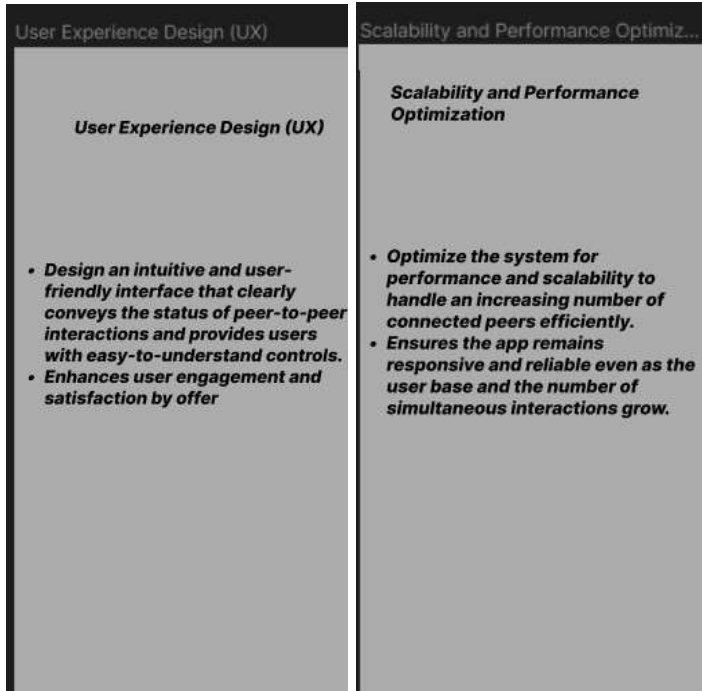

Aim: Wireframes for a collaborative mobile app,showcasing the peer-to-peer interactions in real-time using figma
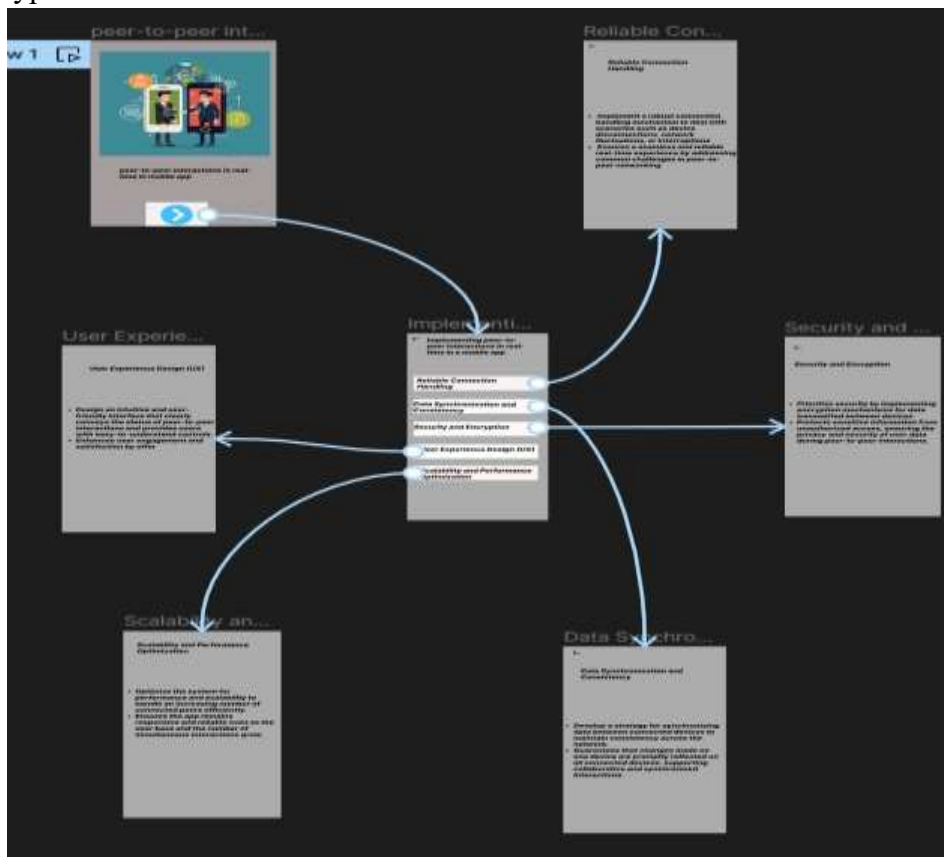

Procedure:
1. Open Figma
2. Create a new file
3. Select the Frames
4. Design Visual Elements 5. Make it Interactive
6. Add icons on the Frame
7. Incorporate Multimedia
8. Storyboard Animation
9. Review and edit the Prototype
10. Save and Share

Design:

User Experience Design (UX)

User Experience Design (UX)

- **Design an intuitive and user-friendly interface that clearly conveys the status of peer-to-peer interactions and provides users with easy-to-understand controls.**
- **Enhances user engagement and satisfaction by offer**

Scalability and Performance Optimiz...

Scalability and Performance Optimization

- **Optimize the system for performance and scalability to handle an increasing number of connected peers efficiently.**
- **Ensures the app remains responsive and reliable even as the user base and the number of simultaneous interactions grow.**

Prototype:

Result:

HenceWireframes for a collaborative mobile app,showcasing the peer-to-peer interactions in real-time using figma have been created successfully
